MEDICAL STUDENTS

The number of places we have for medical students is restricted to 2 per ward – a total of 14 at the same time. So be on time to apply if you want to come.

Haydom Lutheran Hospital has an on-going program that accepts medical students that require an internship/elective or descriptive research from their school. If you are a medical student you are welcome to apply for this program.

It would be wise to apply some time in advance. It is also important to inform that we cannot guarantee fully qualified specialists at every ward, so if your medical school requires specialist supervision, you should contact the hospital well in advance to see if the appropriate specialist is present at the time of your stay.

Who can apply?

Haydom welcomes you to apply for the program if you are a medical student at a recognized university or medical school, and you are looking for a practical attachment in the clinical area at Haydom (internship/elective) as part of your course.

Your university has connections with HLH?

HLH has on-going arrangements with medical colleges and universities around the world. You can contact the hospital directly but please cc your professor so that the institution can make a follow up. By 2022 HLH cooperates with the following medical schools:

University of Bergen
University of Aarhus
University of Virginia
Vrije Universiteit Amsterdam
Universiteit van Amsterdam

Maastricht University
Erasmus Medical Centre, Rotterdam
LUMC Leiden
University College South Denmark
Utrecht University
Oslo University Hospital

If you are not from any of these schools for us that is not a problem.

How to apply?

Send an e-mail with your motivation letter, preferred period of stay, preferred wards and CV to expats@haydom.co.tz

The wards possibilities are the medical, surgical, orthopedics, pediatric and obstetric departments. There is also a radiology, ICU and psychiatry unit. The actual placement is subject to availability. Please send us the requirements of your elective (duration and goals).

What happens if I apply?

You will receive an answer from the expats coordinator to approve or reject your application. If you did not get a reply within 3 weeks, please e-mail us because than something might have gone wrong. The expats coordinator will send you the student agreement, and some other information. As soon as you have completed and returned the student agreement your booking is final.

What is expected of you during your stay, you can find in the document "Job description for students".

Before you come to Haydom, please pay the tuition fee, and arrange your visa.
